Subject Matter Expert
Gary Reimers

Expertise

- Independent Verification and Validation (IV&V)
- Service management

Mr. Reimers' background includes more than 20 years of IT experience in both the private and public sectors, specializing in large enterprise system design, implementation, and management. In his tenure with PCG, Mr. Reimers has focused on state government projects, providing strategic planning, service development, technical assessments, independent technical verification and validation (IV&V), technical design, cost allocation studies, and procurement support (i.e. FSR and RFP development/evaluation) for multi-year, multi-million dollar development projects. He specializes in large-scale technology projects while operating under the principle that IT exists to support business needs and improve business capability.

Mr. Reimers is currently a vice president with PCG Technology Consulting (PCG TC), where he has worked since 2003. He has led numerous large, state-level government IT consulting projects for the firm, serving in a variety of rolls including IV&V lead, project manager, technical architect, infrastructure SME, IV&V consultant, and senior managing consultant.

Experience

Prior to joining PCG, Mr. Reimers served as Director of Technology for HealthNet, a multi-billion dollar national health care corporation, where he was responsible for strategic planning, technology evaluation, design, selection, implementation and support of complex computing environments which included multiple data centers and remote sites across the U. S. Mr. Reimers' well-rounded experience also includes extensive technical and managerial positions for technology organizations within the insurance industry (Cal-West Life Insurance), the agriculture industry (Blue Diamond Growers), and the health care industry (Sutter Health).

Education and Affiliations

Mr. Reimers earned an MBA with honors from Clark University in Worcester MA and earned his BA in Psychology from the California State University at Sacramento. He holds an ITIL Foundation certificate from the ITIL Certification Management Board and is a member of the Beta Gamma Sigma International Honor Society.
